CARLO LAMPERTI
est 1861

Weaving ideas and emotions

Thank you for choosing us!

HISTORY

1861 marks the beginning of an exciting journey; a story we are still writing and would like to tell you through what we have been doing for more than 150 years.

Tessitura Carlo Lamperti has been passionately producing table linen for hotels and restaurants for 6 generations.

The combination between tradition, a more than 150 years experience and a big focus always turned to the future contribute to the creation of unique products.

SUSTAINABILITY

Environment care and protection represent fundamental values on which the company strategy has always been based.

For this reason Carlo Lamperti has been offering since always its customers the possibility to obtain products with GOTS certified yarns, is working to obtain the BCI certification and supplies only through certified and controlled supply chains.

For years the company has been using its resources and knowhow for the realization of eco-sustainable products derived from recycled cotton or fabrics from waste processing or second choice, all to minimize environmental impact. Carlo Lamperti adopts a plastic free approach in all its workplaces and for the presentation of its products.

The company stands out in its attempt to give new life to what would otherwise be discarded.

QUALITY

We do not believe in blind chance.

We believe that those who choose Carlo Lamperti already know how to appreciate and recognize the value of our quality.

Quality is so important to us that we have created an entire management system based on it, certified by UNI EN ISO 9001:2008.

So now we are able to control and guarantee every single phase of our work and process.

We have also received certifications such as Oeko-Tex Standard 100, HOHENSTEIN and GOTS which guarantee respect for human beings and the environment.

TECHNOLOGY

Technology and the ability to innovate ourself have always been strong bases on which Carlo Lamperti strategy is based.

Such a strong tradition and an indissoluble bond with the past have never limited us; instead, they have always push us to go further and further.
