Green Collection

The protection of the environment is one of Carlo Lamperti's priorities since many years. For this reason we put all our experience and know-how to develop our first green and sustainable collection.

A line of products with 5 different kitchen towels and 1 napkin all produced with **RECYCLED COTTON!**

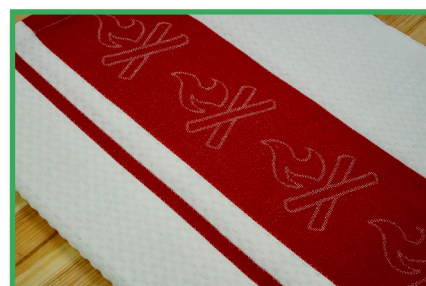

It took us 3 years to develop the perfect combination between design, usability, and durability together with the support of our partner laundries and restaurants.

The aim of this collection, designed for professional use and industrial washing, is to avoid paper use as much as possible, and to reuse cotton wastes.

According to HACCP norms, it is forbidden to use the same instrument to clean different kinds of dirt and surfaces. Thus, every single piece of Carlo Lamperti's Green Collection has its own specific use and purpose inside restaurant kitchens.

These are the collection pieces:

GREEN FIRE

To avoid burns and to pick up hot pans

GREEN GLASSES

To clean and dry your glasses

GREEN SERVICE

The perfect green serving towel for your waiter

GREEN HANDS

To dry your hands

GREEN BREAD

For your breadbasket and buffets

GREEN NAPKIN

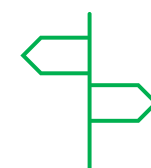

The perfect green napkin for your restaurant

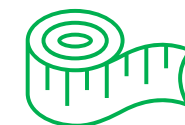

Information

PRODUCT	SIZE (cm)	WARP	WEFT	RYC COMPOSITION	TOTAL COMPOSITION
GREEN HANDS	55X75	18,74% 30/2 carded, indanthrene dyers 81,26% 20/2 RYC	100% 20/2 RYC	70% recycled cotton 30% recycled polyester	61,14% recycled cotton 12,65% cotton 26,21% recycled polyester
